Goal 1 – increase involvement of the SAT CEN to distribute their products via EOW		GISMO – issues (for discussion)	Second	TBD	VGO: Marc ( SATCEN) has confirmed that it is not feasible to install GISMO with the current configuration		On hold	riioney	тво	rumed to predict see mi	Netericity and
Goal 2 User Friendly aspects	FR4. Improvements of CAMEO main services functionalities	E-mail notification service change		TBD		APO: ED to provide clarifications regarding the notification triggers for all main items in CAMEO ( with focus on FOLDER events)	Open	N/A	EEAS	N/A	
Goal 2 User Friendly aspects		Token removal – other type of authentication		Long term	Long Term						
Goal 2 User Friendly aspects		Group certificate versus personal certificate (especially for MS)		TBD	TBD		On hold				
Goal 2 User Friendly aspects	FR1. Modernize existing interfaces	Default Window - Resize capability (Jaroslaw OKRENT)	1. 3.Improve navigation pane:1.3.1. Horizontal expandability: posibility to manually enlarge the size of the pane horizontally; 1.3.2. Vertical expandability: the navigation pane should be placed in a separate frame and should have a rigt scroll to allow vertical expansion when more SDAs are added. Now, the navigation pane is in the same frame with with the main page, which means that as we add more SDAs the size of the whole web page will increase. The size of the main page should remain fixed, irespective of how many SDAs are added within the navigation pane.	Short term	ED			High			
Goal 2 User Friendly aspects		Collaborative tools ( Text Chat , Audio chat, Video - VTC)		Mid term	To be approved in CCB					ССВ	
Goal 2 User Friendly aspects		Alignment of buttons in all interfaces	Horizontally align buttons in 'Modify SDA' form and Distribution list page (IE9)	Short term							
Goal 2 User Friendly aspects	FR4. Improvements of CAMEO main services functionalities	WebDav "look & feel" for file upload	We prefer CAMEO to be simplified and have a "FTP- Server" look and feel, with drag-and-drop possibilities and an easy way to assign rights.	TBD	VGO: Suggested by Marc Cabioch;						https://en.wikipedia.org/wiki/WebD/ V, http://www.webdav.org/
