Requirements for enhancing "Information Auditing" and "Auditing Statistics" forms

1. **Information Auditing**
1.1 Current format (AS IS):
- Existing fields:

  [From date](Calendar),

  [Until date](Calendar),

  [Nr of entries](Text Box),

  [Type of Event](Dropdown List; Values: "Search", "Web manager", "Forum", "Notification", "Doc manager", "Calendar", "Errors")

2.1 Desired format (TO BE):
- Existing fields:

  [From date](Calendar),

  [Until date](Calendar),

  [Nr of entries](Text Box),

  [Type of Event](Dropdown List; Values: "Search", "Web manager", "Forum", "Notification", "Doc manager", "Calendar", "Errors")

  [SDA](Dropdown List; Values: to be picked from the database dynamically)

2. **Auditing Statistics**
2.1 Current format (AS IS):
- Existing fields:

  [Parent] (Dropdown List; Values: Added progressively, probably picked from the database),

  [Year] (Dropdown List; Values: Hardcoded, Range 1997 – 2020),

  [Month] (Dropdown List; Values: Hardcoded, Range Ian - Dec),

  [Service](Dropdown List; Values: "Document Manager", "Administration", "Forum", "Calendar", "Web Publishing", "Notifications", "Distribution List")

2.2 Desired format (TO BE):
- Existing fields:

  [Parent] (Dropdown List; Values: Added progressively, probably picked from the database),

  [From date] (Calendar),

  [Until date] (Calendar),

  [Service] (Dropdown List; Values: "Document Manager", "Administration", "Forum", "Calendar", "Web Publishing", "Notifications", "Distribution List")

Commented [PAM(1): Identify mechanism

Commented [PAM(2): Check range

Commented [PAM(3): Gives possibility to query by a range in time, not by a fixed period Year + Month
